Table of Allotments, )  
FM Broadcast Stations. )  
(Green River, Wyoming) )

MM Docket No. \_\_\_\_\_  
RM - \_\_\_\_\_

DOCKET FILE COPY ORIGINAL

To: Chief, Allocations Branch

**PETITION FOR RULE MAKING**

Wagonwheel Communications Corporation ("Wagonwheel"), by its attorneys and pursuant to Section 1.415 of the Commission's Rules, hereby seeks the allotment of Channel 268C to Green River, Wyoming. In support thereof, the following is shown:

The current FCC Table of Allotments, Section 73.202(b) of the Commission's Rules, shows no channels designated for use in Green River. Wagonwheel proposes that Channel 268C be allotted to Green River, Wyoming, as that community's first local FM service. As shown in the attached Engineering Statement of Robert D. Culver, Wagonwheel's engineer, Channel 268C can be allotted to Green River in accordance with the minimum mileage separation criteria contained in Section 73.207 of the Commission's Rules.

Wagonwheel submits that the public interest will be served by expedited processing and grant of the instant petition. If

No. of Copies rec'd 044  
List ABCDE MMB

Channel 268C is allotted to Green River, Wagonwheel will immediately file an application for a construction permit for the facility and if the permit is granted, will proceed expeditiously with construction.

Respectfully submitted,

**WAGONWHEEL COMMUNICATIONS CORPORATION**

**EXHIBIT E**  
**ENGINEERING STATEMENT RE:**  
**MODIFICATION TO THE FCC**  
**FM TABLE OF ALLOTMENTS**  
**WAGONWHEEL COMMUNICATIONS CORPORATION**  
**GREEN RIVER, WYOMING**

**INTRODUCTION**

This engineering statement is prepared on behalf of Wagonwheel Communications Corporation, the "Petitioner", to amend the FCC FM Table of Allotments, Section 73.202(b) of the FCC Rules. All information contained in this statement is prepared in conformance with the current FCC Rules.

**PROPOSED CHANGES**

The current FCC FM Table of Allotments shows no channels designated for use in Green River. It is proposed to add channel 268C to Green River, Wyoming as that community's first local FM service. An allocation study was conducted from the Green River Reference Point at geographic coordinates:

North Latitude 41° 31' 36"      West Longitude 109° 28' 06"

That study shows that Channel 268C meets all of the separation distances specified in Section 73.207 of the FCC Rules. A copy of the allocation study is attached as Figure 1.

Respectfully Submitted,
